

Metaacres

Metaacres will be the world's first Mixed Reality Metaverse Real Estate marketplace, making your property selling, buying experience more futuristic.

What is Metaverse?

The metaverse is the idea of an online, 3D, virtual space that connects people in all parts of their lives. It would be like the internet, which has a lot of different websites that can be accessed through a single browser. People can get into the Metaverse with devices like smartphones, laptops, and VR headsets. Metaverses give people an experience that exists in both digital and physical realms.

Metaverse Impact On Real Estate

Metaverse affects real estate is by making it easier to buy and sell real estate online

A lot of people are moving into the metaverse. This rise in real estate digitalization was made possible by VR, AR, and AI, which helped make this happen. It also has an effect on real estate because of these technologies.

One way the Metaverse affects real estate is by making it easier to buy and sell real estate online, rather than going to see it in person. It is a good way to invest in properties outside of your home state without having to go there. It can also make it easier to look for properties that aren't on the market, without having to drive around the neighbourhood

What is Metaacres ?

We are developing world's first Mixed Reality Metaverse Real Estate marketplace to sell and buy properties using metaverse technology and get a chance to earn special NFT for interaction with properties listed in Metaverse Platform.

○ Buy/Sell Properties

Metaacres is your one stop place to buy & sell properties and get a chance to earn special NFT for interaction with our properties listed in Metaverse.

○ Virtual Tour

Sellers can list property's virtual tour where users can interact with it by going on a virtual tour in **Metaverse** and earn hidden NFT inside the property,

○ Pay through MARET

For people who want to advertise on website or promote their listing can pay through Metaacres(MARET) token. Listing fee to be paid through Metaacres token, selected cryptocurrency or bank payment.

○ Virtual Property

Users get a chance of getting special NFT which can be used to claim a unique and rare virtual property which is exclusively available for the users listing and buying through the platform.

○ NFT Reward

Each user visiting the real world property listed in Metaacres's Metaverse will have to complete certain tasks in the virtual world to receive their NFT reward.

Revenue Model

NFT Merging Fees

Minimum Platform Fee on NFT Merging for getting a Virtual Property
